

TEMPERATURE VERIFICATION KIOSK

Our Personnel Management Solutions features a temperature verification capability. The solution can also be programmed for facial identification, with users easily added in a few short clicks. Designed to help protect the health and safety of both employees and guests by preventing anyone with a temperature from entering a facility. Alarms can be added to sound when those above the temperature threshold and those without access attempt to enter.

- Freestanding
- Digital signage integration
- 2 million pixel camera
- 2.5W/4R speakers
- Supports detection and tracking of multiple people at the same time
- Facial recognition library up to 30,000 people
- Temperature accuracy $\leq \pm 0.5^{\circ}\text{C}$
- Temperature range $10^{\circ}\text{C}-42^{\circ}\text{C}$
